SUMMARY

Frontend developer with 4+ years of professional experience building React web apps and a React Native mobile app for a payments company and a health-tech startup. Builds reusable component libraries, improves page performance, and writes automated tests. Also runs a part-time freelance practice building Next.js websites for small businesses. Fluent in English, native Swahili speaker.

TECHNICAL SKILLS

Languages	**TypeScript, JavaScript (ES6+), HTML5, CSS3, SQL**
Frontend	**React, Next.js, React Native, Tailwind CSS, Storybook**
Backend	**Node.js, Express, REST APIs, PostgreSQL**
Testing & Tools	**Jest, React Testing Library, Git, GitHub Actions, Vercel, Figma**
Spoken Languages	**English (fluent), Swahili (native), French (basic)**

EXPERIENCE

Brightleaf Labs — Nairobi, Kenya (Hybrid)
Frontend Developer — Mar 2024 – Present

- Built and maintained the customer dashboard of a payments web app in React and TypeScript.
- Helped migrate the checkout flow from JavaScript to TypeScript, working with two other developers.
- Built about 15 reusable React components, documented in Storybook.
- Improved dashboard load time by an estimated 20–30% (Lighthouse lab data) through code splitting and image optimization.

Kijiji Health — Nairobi, Kenya
Junior Web Developer — Jun 2022 – Feb 2024

- Built a React Native appointment booking app with about 1,200 monthly active users (mid-2023).
- Built React pages for the clinic admin portal.
- Added endpoints to a Node.js/Express REST API backed by PostgreSQL, reviewed by the backend developer.
- Wrote unit tests with Jest and React Testing Library.

Tano Systems — Nairobi, Kenya
Software Engineering Intern — Jun 2021 – Sep 2021

- Fixed accessibility issues in an internal dashboard toward WCAG 2.1 AA (colour contrast, keyboard navigation, form labels).

PROJECTS

Freelance Web Developer · *Self-employed, part-time* (Next.js, Tailwind CSS) — Jan 2023 – Present

- Built 6 websites for small businesses with Next.js and Tailwind CSS.
- Set up deployments on Vercel and basic analytics with Plausible.

Shamba Prices · *Side Project* (Next.js, Claude API, PostgreSQL) — 2025

- Built a chat assistant that answers crop price questions in English and Swahili, using the Claude API and a PostgreSQL database of market prices.
- About 40 farmers used it during a 2-week pilot with a local cooperative.

EDUCATION

Kilima University
B.Sc. Computer Science
Nairobi, Kenya · Graduated Dec 2021
Second Class Honours (Upper Division)
